

Dear Hornet Parent and Family,

I have been notified that your child will be learning from home for a period of time. My goal is to ensure that your child has the academic support needed while at home. Therefore, I will be providing daily access to video instruction via Schoology for your child to access each school day. Your child may email any questions about the lesson for that day via Schoology. I will follow up with your child at a later time to address any questions.

All assignments and assessments will also be posted in Schoology so that your child can keep pace with required classroom activities during this time. Online instructional resources are also accessible via Schoology. In addition, our school will be scheduling academic support sessions so students can have access to tutoring and/or help sessions while they are learning from home. The teachers/staff providing this support will contact you regarding specific times and login information for these sessions.

Please note that to be counted as in attendance, students must demonstrate daily “meaningful interactions” during remote learning. This may include:

- A daily check-in with me
- Working with a teacher one-on-one or in a small group during scheduled times
- Submission of daily independent learning activities or an assessment
- Participation in an online discussion board in Schoology
- Two-way exchange of communication via email, video conference, or phone call

We appreciate your partnership and collaboration as we support your child’s continued learning during this time. To access additional information and resources to support your child while learning from home, please visit our website at:
