

AP Seminar

Develop and practice the skills in research, collaboration, and communication that you'll need in any academic discipline. You'll investigate topics in a variety of subject areas, write research-based essays, and design and give presentations both individually and as part of a team.

Skills You'll Learn

- | |
|--|
| • Reading and analyzing articles, studies, and other texts |
| • Gathering and combining information from sources |
| • Viewing an issue from multiple perspectives |
| • Crafting arguments based on evidence |

Equivalency and Prerequisites

College Course Equivalent

AP Seminar is an interdisciplinary course that encourages students to demonstrate critical thinking, collaboration, and academic research skills on topics of the student's choosing. To accommodate the wide range of student topics, typical college course equivalents include interdisciplinary or general elective courses.

AP Research

Build on what you learned in AP Seminar to deeply explore an academic topic, problem, or issue of individual interest. Through this exploration, you will design, plan, and conduct a year-long research based investigation to address a research question.

Skills You'll Learn

- | |
|---|
| • Conducting independent research |
| • Analyzing sources and evidence |
| • Applying context and perspective |
| • Writing a college-level academic paper |
| • Presenting research findings to an audience |
