Individual Eligibility Rules

Attention Student! To be eligible to represent your school in the C.M.S.L., you must meet the following rules:

1. The student shall be a bona fide student in good standing in the school that he/she represents. This includes being enrolled in at least five classes during each of the four nine week grading periods.
2. The student shall be a bona fide student (in good standing) in the sixth, seventh or eighth grade and must have met all necessary requirements (2.0) after having been promoted.
3. After promotion to the sixth grade, students must have a 2.0 grade point average. The 2.0 will be based on the previous nine weeks or overall grade point average. A minimum 2.0 grade point average will be required from that point.
4. As with sixth graders, those promoted to the seventh or eighth grade must also have a 2.0 grade point average. Likewise, a minimum 2.0 grade point average will be required from that point.
Exception: A student may remove an academic deficiency during summer school so as to render that student eligible to participate during the first nine weeks of the ensuing school year.
5. Special Education Students – The eligibility of special education students will be determined by the principal of each middle school on a case-by-case basis. This is subject to nine-week review as required of other students. However, special education students do not automatically become eligible to participate in sports once they switch to an IEP. The principal and IEP team are to decide whether or not the student has met the goals established in the IEP (usually over a four-week period).
6. Age: A student may not have reached the age of fifteen (15) on or before August 1 of the school year in which the student intends to participate.
7. A student may not participate in a particular sport more than once as a sixth, seventh, or eighth grader. In addition, he/she is not eligible to participate in any sport during the first nine weeks of the repeat year.
8. Though middle school students may qualify under the Virginia High School League rules to participate on the junior varsity level, they should participate on the middle school level unless they are ineligible (e.g., age). Should an eligible eighth grade student elect to participate in a junior varsity sport, the student may not participate in the same sport at the middle school level during the remainder of the school year.
9. Each student must complete the Athletic Participation/Parental Consent/Physician's Certificate Form at least once during each school year.

Eligibility to participate in interscholastic athletics is a privilege you earn by meeting not only the above-listed minimum standards, but also all other standards set by your League, and school. If you have any questions regarding your eligibility or if you are in doubt about the effect an activity might have on your eligibility, **check with your principal for interpretations and exceptions provided under League rules.** Meeting the intent and spirit of League standards will prevent you, your team, school and community from being penalized.

I have received rules of the Chesapeake Middle School League (above) and believe I am eligible to represent my school in the Chesapeake Middle School League.

Student Signature: _____ **Date:** _____

Providing false information will result in ineligibility for one year.

*Includes Cheerleaders and other activities as directed
