

GET READY FOR THE SCHOOL YEAR

BE *Virtually* UNSTOPPABLE

2021

SCHOOL YEAR

The first day of learning is right around the corner and our schools are busy preparing to welcome our students and families to a brand new school year. To help our students be successful virtually, we've included some important information below. We will provide additional updates like this as the year continues and all updates will be posted on our website.

DEVICE DISTRIBUTION - During the week of August 25-28, schools will begin device distribution based on need as determined by ParentVue responses from earlier this summer. Schools will contact families directly with instructions for picking up devices. Additional opportunities for device pickup will be available the week of August 31- September 4.

SCHOOLGY ACCESS - Schoology is an all-inclusive learning environment that brings everything students, parents and teachers need into an easy-to-use digital platform that is great for both on-campus and at-home learning. To help families prepare to use this new platform, we will host four live Schoology demonstrations:

Thursday, August 27 at 2:00 p.m. and 6:00 p.m.
Tuesday, September 1 at 2:00 p.m. and 6:00 p.m.

ATTENDANCE - We know you must be wondering how attendance will work now that we will begin the year online. Daily attendance for teacher-led learning sessions is important to student success; however, we recognize the scheduling challenges families may face. **Meaningful interaction between a teacher and a student will count as daily attendance.**

In order to accommodate the needs of our students and families, students may participate in any of the following **meaningful interactions**:

- 1 - Attending a teacher-led learning session.
- 2 - Collaborating with a teacher 1:1 or in small group during teacher office hours.
- 3 - Submitting an independent learning activity, assessment, or participation in an online discussion board in Schoology.
- 4 - Communicating with a teacher via email, videoconferencing, or phone call.
