

Chesapeake Public Schools
**COVID-19
UPDATE**

March 11, 2020

Dear Families,

The health and safety of our students and staff remains our top priority. **Currently there are no confirmed cases of COVID-19 in Chesapeake Public Schools.** We continue to monitor student and staff attendance closely, and prepare for the possibility that the virus could make its way to our area.

In situations like these, rumors may cause unnecessary reactions and panic. We encourage you to get information from credible sources, such as the Virginia Department of Health, the Centers for Disease Control and Prevention, and the Chesapeake Health Department.

We are committed to keeping you informed and will provide email updates as new information becomes available. This is a good time to update your contact information with your child's school, as we will notify you using our Parent Alert System if there is a change to our daily operations.

All updates will be posted to our website, including answers to [Frequently Asked Questions](#) and links to additional resources.

Thank you for support as we work together to ensure the safety of our students and staff.

Sincerely,

Jared A. Cotton, Ed.D.
Superintendent
